Computer Networking: A Top-Down Approach

9th edition
Jim Kurose, Keith Ross
Pearson, 2025

Important Announcement
郑重声明

由于我的课程一周只有一次课程，对大家的了解和认识非常有限

本人不再为学生申请国内外的研究生项目做推荐人。

1st Question before the course

Did you ever take a 'Computer Networks' course when you were an undergraduate?

If not, please make best use of the QQ group for Q&A. Or you can raise your hand immediately when you have questions.

Full English Course (Suzhou)

Item	Language
Lecture PPT	English
Student PPT presentation	Written in English presented in English / Chinese
Discussion	English / Chinese
Lab report + wireshark Lab summary	English
Final Exam	English

- How many wireshark labs have been done?
- What obstacles did you meet?
- How do you solve them?

Wireshark Lab

www.wireshark.org

Tentative Lecture Grading Policy (Suzhou)

- PPT homework + presentation 20%
- Final exam (half-open book 60%
  with one piece of A4 paper)
- Practice part (LAB) 20%

研究生课程考试成绩单（试卷封面）

➢**Homework is due on the next Tuesday.**

➢**Please submit your mini-group homework to the Relevant QQ directory.**

➢**The FORMAT of your PPT file name 学号_姓名.pptx**

Grouping (Suzhou)

- 5 groups
  - Each group includes around 5 students
- A 5-min presentation has to be given by each student

5 presentations each week

Lab summary example

- The important is to be honest with yourself.
- Achieving self-improvement.
- Don’t copy. Clear screenshots and tool version.
- Don’t use AI-generated lab descriptions.
- Concrete process and results are needed.

Through this experiment, the knowledge in textbook becomes real and truthful. I know Ethernet frame has MAC address, and ARP is used to change IP to MAC, and I see the process of their working, that makes me more understanding about the ARP protocol. I also remember HTTP use port 80 and DNS use UDP port 53. Before, these are just words to me. Now I can see the structure. Although I made mistakes during the process, I still solved them by myself, and that makes me remember better. I think this experiment is very useful for understanding computer network structure.

Something before the course

- The Internet is a very big network.
- Experiments can only be conducted in a small simulated network.

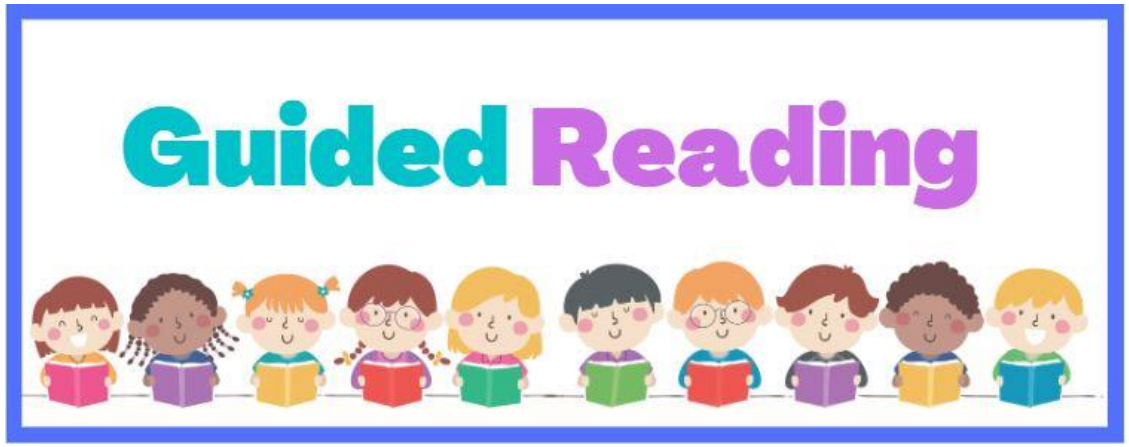

- Reading more literature / blog after class will help you get familiar with the content.

Exam date

- The end of 2026

or

- The beginning of 2027
